Document Automation Platform

Innova: the leading document automation platform

Streamline and standardize document creation and automation

BEST-OF-BREED TECHNOLOGY DELIVERING AN UNPARALLELED RETURN ON INVESTMENT

- Numbering
- Pleadings
- Templates
- Dialogs
- Innova’s codeless development platform translates to less costly and less time-consuming customizations
- Manage your own dialogs and templates with no need for programming
- Simplicity of Design: Innova’s dialog design ensures ease of use for both novice and power users
- Innova’s shrink-wrapped architecture ensures less expensive deployment and updates
- Customize any of Innova’s major modules for an unparalleled ease of deployment

“Document automation [with Innova] at New York-based Aaronson Rappaport Feinstein and Deutsch **resulted in a 33% productivity increase**, reports managing partner Mark Feinstein. ‘Rather than cutting staff, this gain enabled us to service the needs of additional attorneys without increasing support staff,’ he explains. ‘In challenging economic times, this is a wise approach.’”

“GET IN THE FAST LANE” BY ROBERTA GELB, IN LAW TECHNOLOGY NEWS, MAY 01, 2009

EXCEPTIONAL SUPPORT

Innova now benefits from Litéra’s exceptional customer support system, ensuring world-class support for a world-class product.

INTEGRATION
