

BECAUSE ACCURACY MATTERS

Total comparison of multiple document types.

Compare Microsoft Word, Excel, PowerPoint, PDF, Outlook email text, selected text, and web content.

The complete and advanced document comparison of Change-Pro® detects changes in the document, including text, tables, comments, embedded objects (Excel sheets, ChemDraw, Visio, etc.), and embedded images (JPG, TIFF, BMP, etc.).

ADVANCED COMPARISON

Change-Pro offers comparison of the most complex documents. Comparison includes slide notes and comments within PowerPoint files and detailed Excel comparison, down to the formula level.

READABLE & ACCURATE

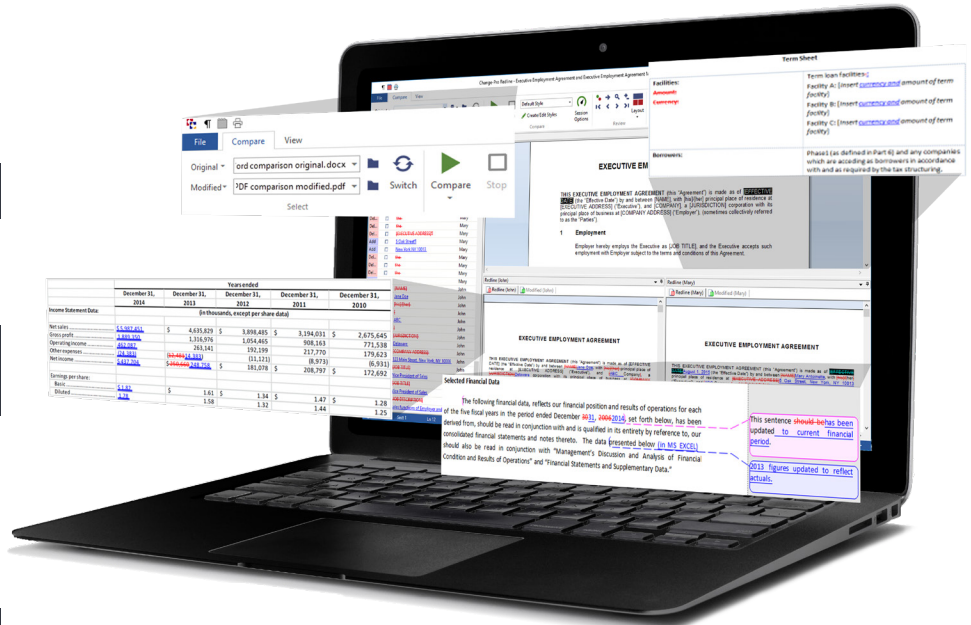

Patented functionality provides comprehensive, robust comparison while clearly highlighting changes for optimal readability.

GRANULAR COMPARISON OF OBJECTS & IMAGES

Change-Pro goes beyond standard text and table comparison to analyze critical changes to elements within all Microsoft file types and PDF documents. Built-in OCR and native PDF, PowerPoint, and Excel comparison ensures complete coverage for all critical documents.

INTELLIGENT TABLE COMPARISON

Our patented Intelligent Table Comparison algorithm lets you choose to ignore structural changes in a table and delivers true textual changes as results.

“Change-Pro Premier is intuitive and easy to navigate. Our users have benefited from the ability to compare Excel and PowerPoint documents. They find value in having the ability to accept specific changes with the change list, email redline pages only, and compare documents attached to an email.”

Godfrey & Kahn

COMPARE

- Embedded objects (Excel, Visio, ChemDraw, etc.)
- Images (JPG, TIFF, BMP, etc.)
- Track changes and annotations in PDF files in place
- Text, comments, shapes, headers/footers, styles, and footnotes
- “Intelligent Table Comparison” ignores structure, making content changes apparent
- Added or deleted rows, cell and formula changes within Excel
- Text and additional elements within PowerPoint, including comments and slide notes

CONTROL

- One-to-many comparisons in the same window
- Floating/locking document windows with multi-monitor support
- Accept and reject changes and ability to create new blackline version
- Patented multi-monitor detection
- Enhanced Print, Save, and distribute options for redlines or changed pages
- Ability to save as redline, Tracked Changes, PDF, or ZIP files
- Full audit report of changes

INTEGRATIONS

- Microsoft Office
- Microsoft SharePoint
- iManage Work
- OpenText DM 5.3, DM 10, DocsOpen, PowerDocs
- Worldox
- NetDocuments
- Epona DMS for Legal

Facts

- Change-Pro reduces collaboration time when finalizing a contract by up to 70%
- 98% of customers who have chosen Litera Microsystems continue to use our products today
- Litera Microsystems products are used by 85% of the AM Law 250

System Requirements

- Microsoft Windows 7, 8, 10
- Microsoft Office 2007, 2010, 2013, 2016
- .NET Framework 4.0 and above
- 2.0 + GHz processor
- 2 GB RAM, 4 GB recommended
- 500 MB available hard drive space
