

ONE VENDOR.
ONE TOOLBAR.
ONE WORKFLOW.
LITERA DESKTOP.

Today's legal technology environment is increasingly complex. As more services are sourced, firms invariably end up buying a wide range of products from multiple suppliers which costs time and money.

SIMPLIFY YOUR WORKFLOW WITH LITERA DESKTOP

Litera Desktop is the legal industry's only unified solution that supports the entire document drafting lifecycle through a single toolbar.

CREATE

Create first drafts with our template and *document assembly* solutions. Find and use your best *clauses* faster, with our clause library. *Style* any document from any source consistently and quickly.

CHECK

Repair and stabilize documents faster. *Proofread* more effectively by reviewing your entire document for potential issues in a consolidated dashboard.

COLLABORATE

Instantly *compare* complex documents. Protect against metadata exposure over *email*. *Share files* and collaborate with confidence by utilizing our suite of security solutions.

THE ONE VENDOR SOLUTION FOR INFORMATION TECHNOLOGY AND OPERATIONS

Increase ROI Provide lawyers with an integrated experience across technologies to drive adoption and reduce cost of overall software purchases.

Streamline Relationships Better utilize time and resources on billing, technical support, procurement, and adoption with one team that truly understands your firm.

Enhance Software Performance Simplify migrations, maintain compliance, and better plan for updates with predictable quarterly releases on all products.

THE SIMPLIFIED WORKFLOW FOR LAWYERS

Work from a Unified Interface Avoid the need to click through different products from multiple companies to accomplish one task

Save Time Focus more attention on clients and spend less time drafting documents when all tools are found within one tab in Word.

"It became apparent that with Litera Microsystems, we could have the benefit of using best-of-breed products, as well as a single, forward-thinking supplier. This greatly simplifies the management of our legal technology, while delivering the innovative tools our lawyers need to serve our clients."

Tony Draksic, Chief Information Officer, Goldberg Segalla
