

BECAUSE CONSISTENCY MATTERS

Innovate your document generation.

Firms are under increasing pressure from clients to reduce costs and improve turnaround time. Legal departments are trying to reduce reliance on outside counsel. Innova™ enables both to generate high quality content quickly by streamlining the repetitious tasks involved with the creation of legal documents.

Innova empowers firms and legal departments to accelerate the production of a first draft, while also ensuring that the most up-to-date precedents and clauses are used.

CUSTOMIZABLE FUNCTIONALITY & BRANDING

Innova is best for firms with developmental resources and an appetite for customizing with VBA. The ribbons, styles, logos, and more can all be customized to fit your firm's needs.

AUTOMATE REPEATABLE TASKS

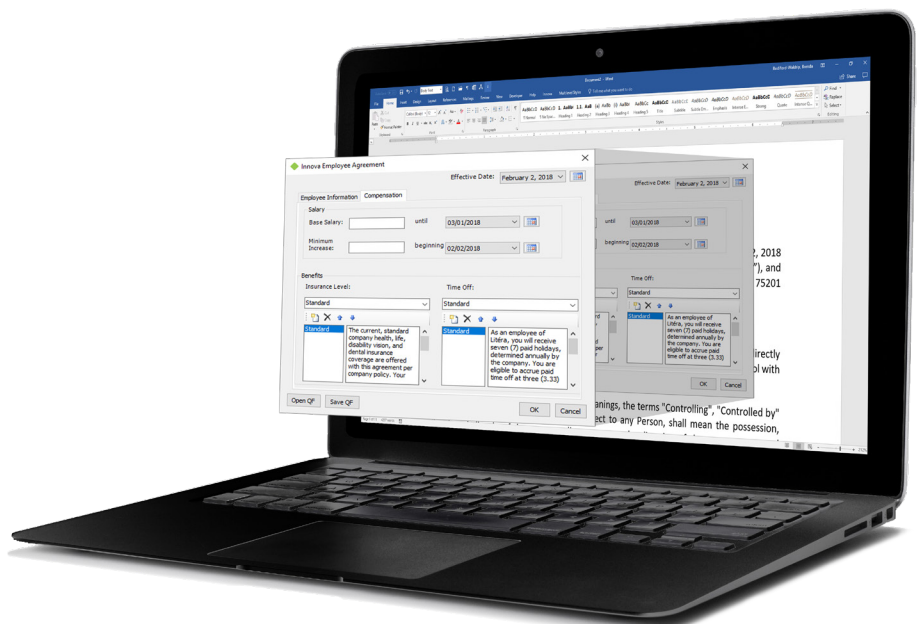

“Quick” features facilitate use of content and data, allowing easy retrieval, use, or conversion of data and documents, in order to retain quality and accuracy.

SUPPORTS OFFICE 365

Whether creating documents on desktop, online, or mobile, Innova supports Office 365 so you are able to build the documents you need, wherever you are working.

TOP-DOWN DIALOG

Innova has familiar pop-up dialog interfaces for creating standard documents, and an intuitive experience that is fluid for users and designers.

“ Instead of having to wait two weeks for a new or modified template, users can have it in one or two days. ”

Maria V. Hutchinson
Senior Desktop Engineer
Weil

Our document assembly solutions reduce the time taken to create a first draft by up to 85 percent.

We help firms use their own precedents and clauses to create high-quality drafts faster, and more consistently, than ever before.

Expert Consultation: Our specialists offer expert consultation to provide firms with the optimal configuration to best suit their needs.

Get help when you need it: Litera Microsystems Customer Support provides ongoing support and expert assistance when you need it most.

DRAFT FASTER

Save up to 85 percent of time in creating the first draft of a document.

FIRM STANDARDS

The quality of your documents directly reflects on your firm. Document assembly ensures that your documents are consistent, and in your house style.

REDUCE RISK

Prevent mistakes by decreasing the amount of manual entry—contact information, styles, clauses, etc.—involved in creating the first draft. This removes the need to reuse old documents with potentially wrong or outdated content.
