

What is Litera Transact?

Litera Transact converts the manual, tedious process of managing transactions into a secure collaborative workspace. The result? A painless and more profitable way to get deals done.

Clients are demanding the highest quality legal advice at the lowest cost, and you want to deliver on those expectations. With clients' increasing desire for innovative legal services and real-time updates, you are also challenged with the arduous administrative tasks that are necessary to close a deal.

Litera Transact can help you automate many of the low-value tasks throughout the transaction process which can free up time to focus on being a trusted advisor.

Users increased deal count by 97% YoY. Here's why:

Lawyers

Save 60–80% of time spent managing signatures

Save over 80% of time spent on closing book creation

Assign tasks, set reminders, and collaborate with all participants

Clients

Sign documents anywhere, anytime, on any device

Get real-time updates and 24/7 access to a deal's progress

Information is protected when shared within a secure platform

Eric Goodman

Partner
Ice Miller LLP

"I have found that I can routinely complete the signature page and signing process for certain closings in 24–48 hours. Before, these deals would routinely take 1–2 weeks just to get all signature pages back from the various parties. I can consistently close deals faster and more efficiently, which makes my clients very happy."

Steps in the Deal Process with Litera Transact

Security, Support, and Integrations

Litera is a global leader that provides legal technology solutions to hundreds of organizations around the world. Keeping customer data safe and secure is of fundamental importance and one of our most critical responsibilities.
