The market-leading comparison tool designed with in-house teams in mind.

Litera Compare accurately detects changes across any two documents in seconds. It is fully integrated into your working life, so you'll never miss a beat.

Why Litera Compare?

The time it takes to manage revisions from multiple authors in multiple document formats using Microsoft Word can become a serious cost issue, not to mention error-prone when spotting changes by eye. As the most robust comparison tool on the market, Litera Compare helps teams spend less time spotting the difference and more time making one.

Quick ROI

Experience massive time savings and ROI when users quickly compare documents within the DMS, Google, email, and more.

Streamline Reviews

Eliminate manual comparisons and version creation with the power to identify and make changes in seconds.

Ideal User Experience

Compare and share documents with anyone and from anywhere without jumping through hoops.

Trusted Accuracy

Have confidence every change was captured, then accept, reject, or flag changes for later review.

Key Features

Integrated Workflow

Compare entire documents or only highlighted snippets from Outlook, the document and case management systems, or directly within the PDF, Word, Excel, or PowerPoint file.

Detailed Change Summary

The comparison analysis is structured by change type and quantity so users can view results and quickly modify or flag for later.

Compare Anything

See changes to any file type, and items such as charts, text, tables, comments, and more.

Save & Share

Save the redlines, a merged version, or create a new document with the original formatting that reflects combined changes, then print or email.

Integrations

- Microsoft Office
- Microsoft SharePoint
- iManage
- OpenText
- Worldox
- NetDocuments

- Google G Suite
- Cloud Service Providers
- 3rd Party Content Providers
- 3rd Party Research Providers
- Internal Intranet

Why More Corporate Teams Trust Litera Compare:

Corporate Counsel
Tullow Oil

"The ability to easily integrate into our [DMS] environment meant we could take the additional benefits of Litera Compare, such as faster and more efficient document comparison, while allowing users to continue using the document management system they are familiar with. We are always looking to deploy tools that make it easier for staff to do their jobs, and the combination of [our DMS] and Compare does that."
