

Total, accurate comparison of multiple document types

Workshare Compare accurately detects changes across any two documents in seconds. Whether you're in the office or on the go, you'll never miss a beat.

Why Workshare Compare?

The time it takes to manage revisions from multiple authors in multiple document formats can become a serious cost issue, not to mention error-prone when spotting changes by eye.

Instant Insight

Get a wholistic analysis of every changed element within your document in a layout that is easy to understand.

Streamline Review

Eliminate manual comparisons and version creation with the power to quickly identify changes.

Trusted Accuracy

Firms and enterprises across the globe depend on accurate and reliable comparisons in seconds, confident of surfacing all modifications.

David Bullock
IT Director
Ward Hadaway

“Document comparison is an essential part of the work carried out by both lawyers and their support teams – decreasing the amount of time spent comparing documents enables the team to process documents faster, turn around work for lawyers quicker and it helps to deliver great client service while keeping the teams happy.”

Key Features

Integrated Workflow

At home or on the go, compare entire documents or only highlighted snippets from Outlook, the document and case management systems, or directly within the PDF, Word, Excel, or PowerPoint file.

Change Summary

The comparison analysis is structured by change type and quantity, helping you filter results and quickly modify or flag for later.

Compare

See changes to any file type, and items such as charts, text, tables, comments, and more.

Save & Share

Save the redlines, a merged version, or create a new document with the original formatting that reflects combined changes, then print or email.
